

PIONEER
SANDS

Premium Synthetic Turf Infill

Features

- Naturally occurring monocrystalline quartz (99%+ Silica)
- Consistent, well-rounded and spherical grains
- Comprehensive ISO quality control, testing and procedures
- Multi-stage washing and screening process
- Air dried
- Natural light brown color
- Multiple packaging options:
 - Bulk
 - 100 lb. bags
 - 50 lb. bags
 - 3,000 lb. super sacks

Attributes

- Exceptional drainage characteristics
- Uniform size and consistent gradation
- High permeability and porosity
- Less compaction and more volume per pound than angular grains
- Low turbidity
- Natural soil aesthetics - cool to touch
- Reduced abrasion to turf fibers in high traffic excessive wear applications
